SUMMARY

Junior gameplay and engine programmer (BTech, Computer Science) shipping physics-driven games in C++ and Unreal Engine 5.6. Writes gameplay code in pure C++ - no Blueprints. Shipped a cross-platform C++ game, a 3D physics party game in Swift, and a six-game Android app in Kotlin/Compose. Builds in the open; every repo has a public roadmap.

TECHNICAL SKILLS

- **Languages:** C++, Swift, Kotlin, Python, JavaScript
- **Engines & Tools:** Unreal Engine 5.6, Chaos Physics, Enhanced Input, SceneKit, Jetpack Compose, Dear ImGui, SDL2, Git
- **Systems:** gameplay programming, physics & collision, client-server replication (in progress), build automation, game feel

PROJECTS

StumbleGuysClone - Solo Developer

Unreal Engine 5.6, C++, Chaos Physics | In progress

- Multiplayer party game with 100% C++ gameplay code - zero Blueprints
- Capsule character controller with Enhanced Input and camera-relative movement
- Roadmap: server-authoritative physics, client prediction, LAN session browser

5IN1 - Solo Developer

Kotlin, Jetpack Compose, Android | Shipped v1.4.0

- Six mini-games (Guessing, Snake, Snakes & Ladders, Ludo, Tic-Tac-Toe, Memory Match), two installable APK variants
- Game feel throughout: haptics, confetti, animations; offline-first, zero network permissions

Number Guessing Game - Solo Developer

C++, Dear ImGui, SDL2 | Shipped v2.5.1, macOS + Windows

- Cross-platform GUI game: modern dark UI, high-DPI ready; fixed broken packaging by bundling SDL2

Stumble Lite - Solo Developer

Swift, SceneKit, iOS | Playable

- 3D physics party game: 4 players, 60-second rounds, hand-rolled collision filtering and virtual joystick

EDUCATION

Bachelor of Technology, Computer Science
MRSPTU, India
